Recovery Station is an Allied Health Services provider that empowers individuals to live a quality life. For fifteen years, Recovery Station has aided thousands of individuals to achieve their goals by providing the foundations for recovery, resulting in a better quality of life.

Recovery Station is one of the largest private providers of Specialist Disability Services and Aged Care in the Sydney, Central Coast and Hunter regions. To improve outcomes for individuals, our multidisciplinary team work together to better achieve desired health outcomes for individuals. Our experienced clinicians have a depth of knowledge and clinical skills across a range of disciplines and are available for clinic and in-home visits.

Our teams are university qualified and provide a variety of treatments, programs and therapeutic interventions that have a genuine impact, so clients can live life to its full potential.
